## Trinity Parkway comment period extended to June 30

On May 5, 2009, a Public Hearing was held for the Trinity Parkway Supplemental Draft Environmental Impact Statement (SDEIS). At the hearing and following the hearing some individuals requested an extension to the comment period for the subject document. The Federal Highway Administration (FHWA) has given further consideration to these requests for an extension of the comment period and we wish to inform interested parties that the comment period has now been extended to June 30, 2009. The FHWA identified those individuals that requested the time extension, have formally notified them of the time extension and we are posting this message to let others know of the extension.
