The Texas Department of Transportation (TxDOT) agrees to perform material inspection and testing services as requested by the Local Government, and subject to the terms set forth below. Material inspection and testing services to be performed by TxDOT consists of the following:

- Various inspected materials fabricated off-site (structural steel bridge components, pre-cast concrete stressed/non-stressed products, and miscellaneous fabricated products).
- Other materials inspection and testing as agreed upon in writing by TxDOT and the Local Government.

Inspections will be performed in compliance with the specifications and instructions supplied by the Local Government and are subject to the terms and conditions described below. Written inspection or test reports will be provided to the Local Government in accordance with TxDOT's existing policies as inspection and testing services are performed by TxDOT.

Prior to the commencement of material inspection and testing services, the Local Government shall provide TxDOT with a single point of contact for this scope of services. TxDOT will direct all invoices, test reports, questions and other issues to this point of contact. The Local Government shall provide an email address to which invoices will be sent. The Local Government shall provide written notification of a change to the point of contact.

#### INSPECTED MATERIALS

The Local Government will provide TxDOT a list of the materials requiring inspection. Estimated quantities of each material will also be provided. The types of products and the extent of the inspections will be as agreed upon prior to commencement of any inspections. The level of inspection and documentation furnished for Local Government inspections will be as provided for typical TxDOT projects.

TxDOT will only perform inspection services for the Local Government at structural steel fabrication plants, commercial precast prestressed and non-stressed concrete products plants, and other miscellaneous fabrication plants where TxDOT routinely provides such inspection and testing services for its own highway materials or for others. Out-of-state inspections for Local Government will be performed only when TxDOT has employees scheduled to conduct inspections for TxDOT projects at the requested locations, unless agreed upon otherwise. All out-of-state inspections will require reimbursement of the additional costs for travel (airfare, lodging, per diem, vehicle rentals, and other miscellaneous costs). Reimbursement will be requested through invoices from TxDOT.

TxDOT reserves the right to prioritize or reschedule any inspection and testing services according to the following:

- Inspection and testing services may be cancelled or deferred due to unavailability of TxDOT personnel to perform the necessary inspection

- Inspections for the Local Government may be rescheduled to coincide with the inspection of products for TxDOT projects.

The Local Government and its fabricators will abide by the Nonconformance Report (NCR) process utilized by TxDOT for disposition of products that do not meet the requirements of the Local Government's specifications provided.

## WORK REQUESTS
