

Trailer causing a hitch in your account?

August 2022

Headed to the lake for fun in the very hot sun? The snacks are packed, the boat hitched and ready to roll. Just one last thing – be sure to avoid paying the higher ZipCash (pay-by-mail) toll rate on your trailer by taking a few easy steps:

1. Contact NTTA to add the trailer's license plate to your current TollTag account
2. Be sure the trailer hitch is not blocking your vehicle's license plate
3. Confirm the trailer's license plate is placed in a visible location

Follow these easy steps to avoid receiving ZipCash bills. Your TollTag account will continue to deduct automatically for your vehicle and the trailer will also receive the lowest toll rate.

Travel to the lake without worrying about paying higher tolls. And remember, our Roadside Safety Service team is always available for free on any NTTA road by simply calling #999.
