Dear Vendor,

I am pleased to announce that the North Texas Tollway Authority will soon begin using eBid eXchange to electronically post all competitive procurement opportunities, including quotes, bids, proposals, addendums and award information. This will simplify the NTTA procurement registration and notification process for vendors.

By registering with this new electronic vendor registration and notification system, vendors will now have a web-based point of contact and broader access to procurement opportunities with the NTTA.

Effective May 1, 2013, vendors may register by visiting:

<https://www.ntta.org/procurement/register/Pages/vendorRegistration.aspx>

Those currently registered with the NTTA's current vendor system will need to register with the new system. To ensure due diligence with notification and outreach for procurements, NTTA will use both its current and new vendor registration systems until June 3, 2013. This provides sufficient time for vendors to register with the new system. After June 3, NTTA will only utilize the eBid eXchange vendor registration system for notification of all competitive procurement opportunities.

The NTTA looks forward to this new registration process. We appreciate your participation and cooperation. If you have any questions about vendor registration, please email vendorregistration@ntta.org.

Sincerely,
