Scott: A NWP 14 PCN was submitted by Jacobs for SH 121 (SWP) Section 2 on 12 August 2008. Project number SWF-2008-00290 was assigned and Barry Osborn was designated project manager. In light of time elapsed since submittal, it appears that we are conditionally authorized to impact waters as presented in the PCN. Let me know if you need more information.
