# TOLLTAG INSIDER

National Public Works Week is Here

May 2023

National Public Works Week is this month and gives us the opportunity to recognize the value of public works in our communities. Public works professionals help connect cities and improve our daily lives – they plan, build, serve, operate, manage and execute projects that enhance infrastructure and more. With this in mind, we're taking a moment to showcase NTTA's Maintenance team and the work they do, year round – learn how they stay ready and resilient, below.

A Wide Range of Functions and Duties: You will not find a more versatile group than NTTA's Maintenance staff. This dedicated group of nearly 180 employees can fix anything from a light pole to a pothole. Our staff includes mechanics, electricians, laborers and more.

Excellent Quality Demands Full-Time Maintenance: In a 2022 customer survey, 93% of NTTA drivers rated the quality of our toll roads either excellent or good. Maintenance staff works 24 hours a day, seven days a week, 365 days a year, to both make repairs and proactively maintain our toll roads.

Clean and Safe: In that same survey, 92% rated the cleanliness of NTTA roads either excellent or good. Maintenance crew members routinely perform litter pickup and remove debris to keep all our roads clean and safe.

Move Over Law Importance: For your safety and ours, please remember to always follow the Move Over Law. It requires drivers to move over a lane or slow to 20 miles per hour below the posted speed limit when approaching an authorized emergency vehicle (including NTTA's Maintenance or Roadside Safety Services vehicles) using visual signals or flashing lights.

Join Our Crew: Have a background in maintenance and a desire to grow your career? NTTA is looking for maintenance technicians to help make what we do even better! Visit our website at https://www.ntta.org/careers to see all open NTTA positions and apply, or email our Recruiting team at recruiting@ntta.org with any questions or for more information.
