### **1 Important Notice**

The North Texas Toll Authority ("NTTA") will not advise an organization on the commodity/service codes ("NIGP Codes") that the prospective vendor should select as part of its Marketplace registered vendor account.

## 2 What is the NIGP Code

National Institute of Government Purchasing ("NIGP") Code is a universal system for identifying commodities and services in procurement systems. This uniform coding system allows for accurate alignment of prospective vendors' expressed offering(s) with the subject of a public solicitation.

# **3 NIGP Code Selection**

As part of a registered vendor's account an organization is required to provide selection(s) that represent the prospective vendor's offering(s).

NTTA utilizes a 5-digit NIGP code structure (###-##). The first 3 digits are referred to as the NIGP Class, and the last 2 digits are referred to as the NIGP Class Item.

### 3.1 Selection During Vendor Registration

During the registration process, selection of NIGP codes is performed on the "Commodity / Service Codes" page.

The NIGP codes search screen utilizes direct NIGP Class and NIGP Class Item, keywords, or established category grouping search options enable you to the best class-class item(s) for a company.
