

TOLLTAG INSIDER

Travel Farther Than You Think

Driving with a TollTag is the most convenient and cost-effective way to travel in North Texas – but what if you could take that convenience beyond your usual commute?

TollTags are accepted on toll roads across Texas, so there's no need to worry about unexpected, mailed invoices after a trip to Austin or Houston if your account remains in good standing.

Road tripping out of state? You'll continue to receive the lowest rates on tolls throughout Oklahoma, Kansas, and most of Florida and Colorado! See where your TollTag can take you, and all the places you can save time and money.

Stay tuned for additional states that your TollTag will access in the future! NTTA is continuously working to increase the value of the TollTag and help customers save on tolls wherever life takes them.

If you have any questions about using your TollTag outside of North Texas, head to our website to plan your trip.

Safe travels!
