CONSTRUCTION ALERT

DNT mainlane bridge maintenance will take place between Downtown Dallas and I-635

As part of maintenance on the south end of the Dallas North Tollway (DNT) multiple bridges will be repaired and resurfaced.

WHY: This work is part of NTTA's continuing effort to maintain the reliable, high-quality roads our customers expect.

WHERE: The DNT mainlane bridges above Harry Hines Blvd., Forest Ln. and Lovers Ln. will be repaired. Wycliff Ave., Lemmon Ave., and Inwood Rd. were completed in spring.

DNT mainlane bridge resurfacing will be completed using a two-lane closure in each direction, so no full closure will be needed. Drivers should expect delays during construction.

While work is occuring, the city street below the tollway may need to be closed. NTTA is coordinating with the City of Dallas and has planned for detours around the closure area.

WHEN WORK WILL OCCUR:

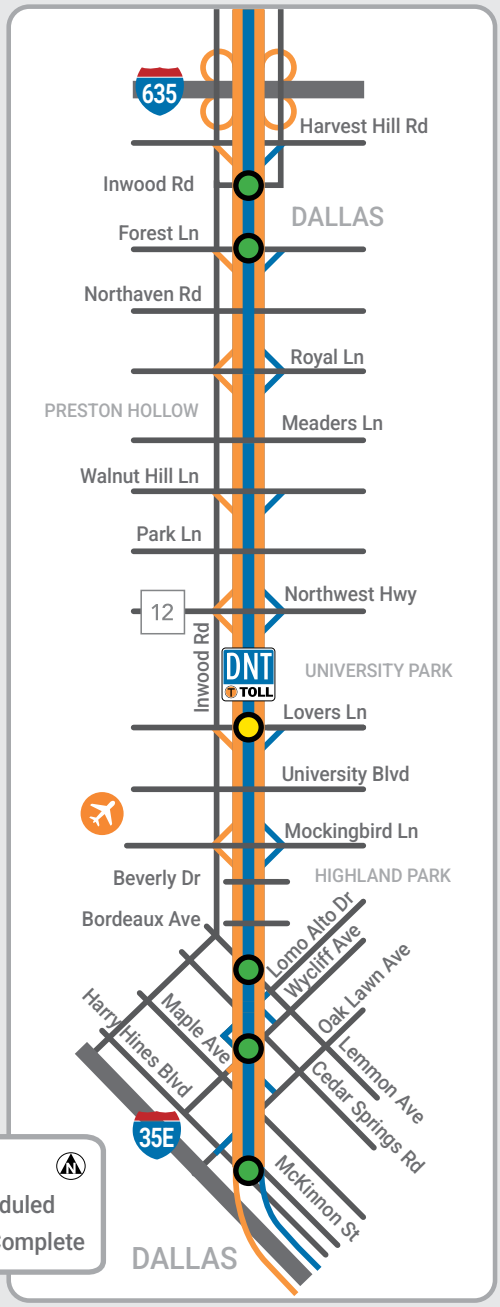

- **Lovers Lane bridge closures:** Friday, December 4 through Monday, December 7 and Friday, December 11 through Monday, December 14.

Traffic Alerts and maps of the area will be shared for each weekend closure with the media and on NTTA's social media pages.

All closures are subject to weather conditions and, if necessary, will be postponed.

See map for additional information.

We appreciate your patience as we maintain our North Texas roadways.
